

# 12v 200ah 4d deep cycle agm solar battery

What is a 12V AGM deep cycle battery?

A 12V AGM (Absorbed Glass Mat) deep cycle battery can deliver 800 cold cranking Amps and is designed for vehicles with plenty of electronics and for audio systems. It has a capacity of 72Ah and can be recharged faster with more than 300 discharge/recharge cycles. Additionally, it has 3x longer life and 15x more resistance to vibration than conventional lead-acid counterparts.

What is a Renogy deep cycle AGM battery?

The Renogy Deep Cycle AGM Battery features a sealed, low-maintenance design and integrated internal structure, minimizing troubleshooting and making it ideal for beginners or anyone seeking a simple, reliable solution.

How much space do I need to install a Renogy deep cycle battery?

Before installing the battery, please note that you need to leave 1.97-3.94 in (5-10 cm) for the top of the battery; the side with busbars needs to be left at least 7.87 in (20 cm). Renogy Deep Cycle AGM batteries provide exceptional safety due to the higher chemical stability of their electrolyte.

Due to its outstanding performance, the Renogy 12V Deep Cycle AGM Battery is a favorite in a wide variety of applications. Maintenance-free and leak-proof, the battery is ideal for standby projects that require minimal monitoring. Thanks to ...
