

2001 solar battery backup

Does p2001 support solar panels?

The Uninterruptible Power Supply (UPS) is built to shield your sensitive and valuable electrical devices. Connecting your essential devices with P2001, the UPS will continue to provide reliable power automatically within less than 10 milliseconds transfer time in any unpredictable outage. P2001 supports 2x200W solar panels maximum.

Which solar power storage solution p2001 is compatible with?

Solar power storage Solution P2001 is compatible with any solar panels (12-48V, MAX 500W) on the market. UPS The Uninterruptible Power Supply (UPS) is built to shield your sensitive and valuable electrical devices. 500W Solar Input - 23% Efficient Portable Solar Panel. This item is a recurring or deferred purchase.

What makes the p2001 plus a good solar power station?

In addition, the AC output port is different from the past, they are all on the front. Relying on MPPT technology to make full use of every ray of sunlight, so that the P2001 Plus can obtain the fastest 500W solar energy input. "Fishing" Empower your life with 2400W high output power station.

What is the battery capacity of p2001 plus?

Simultaneously, the battery capacity of 2048Wh ensures long-term power. When the power grid is out of power, P2001 Plus can quickly switch to UPS mode within 10ms. There is no need to fear the loss of computer files or the sudden stop of the fridge. You could stay away from the crisis of power outage.

Does p2001 have a 2000W power supply?

Huge Capacity P2001 owns 2000Wh being capable of providing sufficient power in any power outage situations. Constant 2000W AC Pure Sine Wave Inverter Easily powering any high-wattage home appliances and devices (air conditioners, microwave, fridge, electric saw, electric drill and etc), P2001 even can surge up to 4000W.

What is p2001 battery management system?

The advanced Battery Management System (BMS) ensures the battery operates intelligently and safely. Equipped with LiFePO4 batteries, P2001 is the safest power supply for your family. They can still reach up to 70% of the original capacity after 3,500 lifecycles.
