

What is energy storage Forum?

We are Europe's first conference dedicated solely to energy storage since 2010. All of our Forum's culminate with the unique Building the Action Plan feature. Join us for this session and take back an action list to the workplace.

Is 2020 a 'decade of delivery' on energy transition?

The year 2020 is considered the beginning of the 'decade of delivery' on energy transition. However, the ongoing COVID-19 pandemic has disrupted all sectors, including energy, and put a stop to business as usual.

What is the Energy Transition Index (ETI) 2020?

The Energy Transition Index (ETI) 2020 is a report presenting the findings from the Energy Transition Index, summarizing insights on countries' energy system performance and their energy transition readiness. The indicators reflect trends in the global energy transition leading up to 2020.

Why is energy storage a problem in the EU?

Energy storage suffers from lack of regulatory certainty within the EU. While a number of member states - Germany and the UK especially - have made great strides in adoption levels, lack of consistency is a looming issue.

Should energy access programmes be redesigned?

Energy access programmes need to be redesigned to prioritize accessibility to a diverse range of energy services, energy-enabled community services, affordable and efficient appliances, and the quality and reliability of the electricity supply. Building upon substantial gains in energy access over the past two decades.

Is Energy Transition Readiness a prerequisite for effective energy transition?

An effective energy transition requires resilience in economic, financial, regulatory, and infrastructure terms, as outlined in the Energy Transition Index (ETI) 2020. The report summarizes insights on countries' energy system performance and their energy transition readiness.
