

## 2021 energy storage battery ranking

Which energy storage systems are the most popular in 2021?

In 2021, Tesla accounted for a 5.3 percent share of the global energy storage integration system market, which combines the components of the energy storage technologies into a final system. NGK Insulator and Fluence accounted for the second- and third-largest market shares. Add this content to your personal favorites.

Which battery company has the most installed capacity in the world?

Chinese battery companies occupy 11 seats in the Top 15 list of global installed capacity, accounting for more than half of the global market share, reaching 51%. Among them, CATL alone is the largest, occupying 32.1% of the global market share, nearly 12 percentage points behind the second-place LGES market share.

What is EVE's Power Battery capacity in 2021?

EVE's power battery installed capacity in 2021 is 2.26GWh, ranking 12th in the world. EVE's main partners in the field of passenger cars are Xiaopeng Automobile, Nanjing Jinlong, Jiangnan Automobile, etc. Their three-RMB flexible battery has also begun to enter the global market.

Is China reversing the battery matching pattern of residential energy storage systems?

With the strong entry of Chinese battery manufacturers and the unanimous choice of the technical route of LFP cells, the battery cell matching pattern of residential energy storage systems is being reversed. In 2021, lithium battery shipments for residential energy storage systems in China reach 5.5GWh, a year-on-year increase of 83%.

Which battery cells are used in residential energy storage systems?

In terms of battery cell selection, since the system providers of early residential energy storage systems are mostly local companies in Europe, North America, Japan and South Korea, their supporting battery cells are dominated by Japanese and South Korean ternary battery systems such as LG, Panasonic, and Samsung.

How much energy will Pylontech sell in 2021?

In 2021, PYLONTECH's energy storage products will sell 1.54GWh in total, an increase of 111.96% compared with 2020. ATL is the world's largest manufacturer of 3C digital lithium batteries. In 2019, ATL established a subsidiary, Poweramp, and began to enter the field of residential energy storage.
