

25 watt solar panel charge 12v battery

The solar charger is used to charge, maintain and desulfate any individual 12-Volt lead-acid batteries (VRLA, AGM, gel and flooded cell), as well as two to four 12V batteries connected in parallel, making it ideal for heavy duty applications.

The Zamp Solar OBSIDIAN® SERIES 25 Watt Trickle Charge Solar Panel Kit is rugged and weatherproof with an IP67 rated integrated solar charge controller. This solution is designed to ensure a properly maintained battery that will work ...

Never get stuck with a dead battery due to parasitic draw in your RV, overland rig, van, dump trailer or other heavy equipment. This solar trickle charger enables batteries to remain fully float charged at the optimum level which in turn ...
