

Acopower built-in battery solar freezer

Our solar freezer utilizes advanced cooling technology that harnesses the power of the sun to maintain a cold temperature without the need for ice. Solar panels convert sunlight into energy stored in battery, powering the cooling system ...

1. Features High efficiency DC compressor and conversion module with high reliability and long life; compressor delay protection Quick cooling to -15°C (based on 25°C ambient temperature), lowest to -20°C Built-in 15600mA/11.1V Lithium ...
