

Aps solar battery program

Does APS offer a rebate for solar water heaters?

APS offers customers an instant rebate for the full installed price of solar water heaters. Customers will own these water heaters and the units will heat a home's water when excess solar generation is available, saving money over the lifetime of the unit.

Does APS provide rebates?

APS provides an instant rebate for the full installed price of the equipment. Customers can also save money over the lifetime of the unit. This rebate program will launch later this year, and APS will provide rebates for approximately 200 grid-interactive water heaters in targeted areas.

What are solar energy savings programs?

APS offers three programs to help customers save on energy costs by using more solar energy. These programs make it easier for customers to consume electricity at midday when solar energy is plentiful and to conserve power in the late afternoon and early evening when it is in greatest demand and, therefore, costs more.

Arizona Public Service, the largest electric utility in Arizona, announced Thursday morning that it will add 850 MW of battery storage and 100 MW of solar generation by 2025, making it one of the largest battery projects in the country. ...
