

Average BESS price per 10kWh in Egypt

How much does electricity cost in Egypt?

The residential electricity price in Egypt is EGP 0.914 per kWh or USD 0.018. The electricity price for businesses is EGP 1.389 kWh or USD 0.027. These retail prices were collected in September 2024 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Egypt with 150 other countries.

How much does a Bess battery cost?

Factoring in these costs from the beginning ensures there are no unexpected expenses when the battery reaches the end of its useful life. To better understand BESS costs, it's useful to look at the cost per kilowatt-hour (kWh) stored. As of recent data, the average cost of a BESS is approximately \$400-\$600 per kWh. Here's a simple breakdown:

How much does Bess cost?

The cost of BESS has fallen significantly over the past decade, with more precipitous drops in recent years: This is nearly a 70% reduction in three years, owing to falling battery pack prices (now as low as \$60-70/kWh in China), increased deployment, and improved efficiency.

When will electricity prices change in Egypt?

CAIRO - 9 September 2024: Egypt has announced a revision in electricity prices for households, set to take effect with the September billing cycle reflecting August's usage. The Electricity Utility and Consumer Protection Regulatory Authority (EgyptERA) disclosed the updated rates for various consumption segments:

What factors affect the cost of a Bess system?

Several factors can influence the cost of a BESS, including: Larger systems cost more, but they often provide better value per kWh due to economies of scale. For instance, utility-scale projects benefit from bulk purchasing and reduced per-unit costs compared to residential installations. Costs can vary depending on where the system is installed.

How many kWh do you use a year?

In the calculations, we use the average annual household electricity consumption and, for business, we use 1,000,000 kWh annual consumption. More recent data are available for download. We report the prices of natural gas. For households, we show the prices on consumption of 30,000 kWh consumption per year.

Base year costs for utility-scale battery energy storage systems (BESS) are based on a bottom-up cost model using the data and methodology for utility-scale BESS in (Ramasamy et al., 2021). The bottom-up BESS model accounts for ...
