

Average BESS price per 5kWh in Ecuador

How much does a Bess battery cost?

Factoring in these costs from the beginning ensures there are no unexpected expenses when the battery reaches the end of its useful life. To better understand BESS costs, it's useful to look at the cost per kilowatt-hour (kWh) stored. As of recent data, the average cost of a BESS is approximately \$400-\$600 per kWh. Here's a simple breakdown:

How much does Bess cost?

The cost of BESS has fallen significantly over the past decade, with more precipitous drops in recent years: This is nearly a 70% reduction in three years, owing to falling battery pack prices (now as low as \$60-70/kWh in China), increased deployment, and improved efficiency.

How much electricity does Ecuador use per capita?

Per capita energy consumption is around 0.83 toe, a level 35% below the South American average (2021). Per capita electricity consumption is approximately 1 500 kWh. In its Electricity Master Plan 2018-2027, Ecuador estimated that its power capacity should increase by 4 GW by 2027 to face a 7%/year increase in electricity demand.

How much gas does Guayaquil produce?

The country's marketed gas production is low (0.5 bcm in 2021) and it has one of the highest venting and flaring rates in the world (58% of gross production in 2021). It is produced from the Amistad field in the Gulf of Guayaquil. The prices of electricity are US\$10.4c/kWh for households and US\$7.8 for industrial customers (2022).

In 2024, the cost per kWh of BESS systems dropped by 40% year-on-year from 2023, now averaging \$165/kWh - less than half the price seen just five years ago. In China, prices have fallen even further, with bids for a large-scale system ...

The cost and performance of the battery systems are based on an assumption of approximately one cycle per day. Therefore, a 4-hour device has an expected capacity factor of 16.7% ($4/24 = 0.167$), and a 2-hour device has an expected ...

3 · The majority of the increase was driven by the increase in the cost of the batteries themselves. That portion of the overall system cost has increased by 33.3% from 36,000 yen/kWh to 48,000 yen/kWh due to the weaker yen and ...
