

Average commercial energy storage price per 250kW in Portugal

Why is storage important for the energy transition in Portugal?

With 21 318 GWh of electricity generated in Portugal between January and June 2022 - 57% of which of renewable origin - storage will be decisive for the much-desired energy transition for two major reasons. On one hand, storage will offset the intermittent generation of renewable energy.

Why is Portugal introducing dynamic electricity pricing?

The government has reduced VAT on basic electricity use to help offset high prices, and most components are clearly broken down on your monthly bill. Portugal is embracing dynamic pricing -- giving consumers more control and potential savings. Two types are available:

What is the new legal framework for energy storage?

In order to attract further investment and speed-up implementation, the new legal framework, which was published in the beginning 2022, provides a framework for standalone energy storage, subject to the previous control procedure, and to be owned by third parties who are separate from the power plant developers.

How are energy storage projects remunerated?

Storage projects are remunerated according to market rules, as the production facilities that inject electricity into the public network. The implementation of energy storage projects by public entities is subject to public procurement rules, requirements and related regulations.

The battery storage technologies do not calculate levelized cost of energy (LCOE) or levelized cost of storage (LCOS) and so do not use financial assumptions. Therefore, all parameters are the same for the research and development ...

The 2021 ATB represents cost and performance for battery storage across a range of durations (1-8 hours). It represents lithium-ion batteries only at this time. There are a variety of other commercial and emerging energy storage ...

The 2021 ATB represents cost and performance for battery storage across a range of durations (2-10 hours). It represents lithium-ion batteries only at this time. There are a variety of other commercial and emerging energy storage ...
