

# Average domestic energy storage price per 50kW in Hungary

How much does electricity cost in Hungary?

The average price of electricity in Hungary, in June of 2023, has been 0.1161 EUR per kilowatt hour. Electricity price has increased EUR 0.0077 kWh, 7.1% since the previous semester. Meanwhile, the average price of electricity without taxes in Hungary in that period was EUR 0.0914 per kilowatt hour, compared to EUR 0.0853 kWh in the previous semester.

How much gas is stored in Hungary?

Much less gas is being stored in Hungary at present than in the previous two years in mid July. According to a diagram from the office of energy affairs, the capacity in 2020 was 5.4 bcm and 4.5 bcm in 2021, while this year that figure stands at 2.84 bcm.

What percentage of Hungary's consumption is in storage facilities?

FM Sziijj recently stated that 28.5 percent of Hungary's total annual consumption is in the country's storage facilities. This does not look good considering that roughly two-thirds of Hungary's consumption, 6 bcm, occurs in the period between November and March. Holoda, however, interprets the situation differently.

How much energy does Hungary produce a year?

Hungary's primary energy production has followed a decreasing trend over the past decade, totaling approximately 447 petajoules in 2023. Nuclear powerplants have played a pivotal role in the country's energy sector, accounting for nearly 45 percent of the total electricity generation.

How much of Hungary's energy consumption should come from res?

Under Hungary's National Action Plan for the Utilisation of Renewable Energy 2010-2020 (NAP), 14.65% of Hungary's primary energy consumption by 2020 should come from RES. This target is more ambitious than the commitment made by Hungary under the RES Directive 4, which was 13%.

What are the main sources of electricity in Hungary?

Fossil fuels, such as natural gas and coal, were the second most-used source of power in the country as of 2023, while solar energy accounted for over 18 percent of the electricity generated. Discover all statistics and data on Energy sector in Hungary now on [statista.com](https://www.statista.com)!

The battery storage technologies do not calculate levelized cost of energy (LCOE) or levelized cost of storage (LCOS) and so do not use financial assumptions. Therefore, all parameters are the same for the research and development ...
