

Average industrial energy storage price per 1MW in Poland

How many MW rated energy storage systems are there in Poland?

The capacity obligations for these projects ranged from 1.2 MW to 153 MW rated power, with an average capacity of around 30 MW. The decision to reduce the de-rating factor for energy storage systems in the last capacity market auction in Poland from 95 percent to 61 percent did not prove detrimental to the market.

Is energy storage a good investment in Poland?

In Poland, interest in energy storage investment has been evident for some time. Last year's main auction of the power market, with capacity delivery for 2029, further bumped up the capacity of storage projects.

What happened to energy storage in Poland?

The Energy Regulatory Office said in a report last year on electricity storage in Poland that, as a result of the main power market auctions for 2021-2028 and the supplementary auctions for 2012-2025, contracts for energy storage with a total capacity of 9.5 GW were concluded.

Is Poland moving towards battery energy storage systems (BESS)?

As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased.

Is Poland a key player in Europe's energy storage sector?

Poland is emerging as a significant player in Europe's energy storage sector. The recent capacity market auctions in December 2024 highlighted a substantial shift towards BESS, with approximately 2.5 GW secured by new generation capacity market units, predominantly Li-ion energy storage projects.

How much does electricity cost in Poland?

A paid subscription is required for full access. In the second half of 2022, electricity prices for the industry in Poland exceeded 11.2 euros per kilowatt-hour. The energy intensity of enterprises in Poland is one of the higher in the European Union and much higher than in Western European countries.

Discover the comprehensive breakdown of 1 MW battery storage cost, ranging from \$600,000 to \$900,000. Learn how Maxbo's tailored energy solutions cater to Europe's energy demands, ensuring cost-efficiency and sustainability. Explore ...
