Is lithium a critical energy resource in Chile?

The global and regional significance of lithium as a critical energy resource is examined. The evolution of Chile's lithium industry is analyzed, emphasizing two recent key policy initiatives: the 2015 National Lithium Commission report and the newly launched national lithium strategy. The salient features of these initiatives are outlined.

How much battery storage does Chile have?

Chile has an operational installed capacity of approximately 1GW in batteries, and another 3GW is under construction. Battery storage has been largely financed by bank lending in recent years, but we believe larger projects could increase the scope for bond financing.

Is lithium a mineral in Chile?

In essence, lithium has a unique status in Chile, similar to hydrocarbons. Under Chilean law, lithium is considered a strategic mineral belonging to the state of Chile, and exploration and operations can only be carried out under special operation contracts (CEOL). 3.2. How does Chile produce lithium?

Its industrial processing relies on two primary methods: production from brines through solar evaporation ponds and production from rock sources via flotation, roasting, and subsequent leaching. Chile is currently the world's second-largest producer of lithium, surpassed only by Australia.

Is lithium research in Chile based on basic science?

However, lithium research in Chile is not only focused on technological developments, but examples of basic science are also being conducted, as seen in ref. 58 and 59.

Will Chile overtake Australia in lithium production?

Chile was once the leading producer of lithium, later surpassed by Australia, and projections indicate that, without an increase in production, it could be overtaken in the coming years by China and Argentina.

Lithium-Ion Batteries: R15,000 to R80,000 or more, depending on the brand, capacity, and advanced features. It's important to consider the total cost of ownership, including the battery's lifespan, efficiency, and maintenance ...
