

# Average photovoltaic ESS price per 800kW in Ireland

Are photovoltaic panels a good investment in Ireland?

Photovoltaic panels can help homeowners and businesses save money on electricity bills by generating clean, renewable energy. The ROI for renewable energy in Ireland depends on the size and cost of the system and the amount of power generated and used. Here's a breakdown of potential savings and earnings for different system sizes:

How much does a 4kW PV system cost?

On average, a 4kW PV system can cost around EUR6,000 to EUR8,000. Installation costs can also vary depending on the complexity of the installation and the company you choose. It's essential to do your research and get quotes from multiple installers to ensure you are getting the best deal.

How much roof space does a solar PV system need?

A tree captures approximately 25kg of CO<sub>2</sub>, so this is the equivalent of planting around 40 trees per year. An eight panel solar PV system would generally require around 17 m<sup>2</sup> of roof space. This is the solar cost and performance for a typical three bedroom semi-detached house with a 10-panel solar system.

Typical costs and returns for solar panel installations in Ireland with downloadable examples. Number updated for 2025. Includes costs, returns, carbon footprint reduction and all the other numbers you need to know about PV Solar ...
