

Average solar plus storage price per 20kWh in Netherlands

Should you install solar panels in the Netherlands?

Another reason to consider installing solar panels in the Netherlands right now is that the Dutch government will actually foot part of the bill. Currently, the Dutch government is offering a sustainable energy investment grant (ISDE) to compensate for the cost of energy-saving and sustainable installations.

How many solar panels can cover your roof in the Netherlands?

Solar panels can cover your entire roof in the Netherlands, depending on your energy needs. Image: Freepik To power your home solely using solar energy, you would need anywhere between 15 and 22 solar panels installed.

How much money can you save with solar panels?

On average, you could save between EUR1,200 and EUR1,450 per year on energy bills if you have solar panels installed. But (surprise, surprise) the amount of money you could save varies based on how much energy your solar panels produce and the average electricity prices throughout the year.

How much solar capacity did the Netherlands add in 2024?

The Netherlands added 3.1 GW of solar capacity in 2024, a sharp decline from the 5 GW recorded in 2023. What's causing the slump? Our new article dives into the prospects for ground-mounted solar, the status of the SDE++ scheme, and the challenges and opportunities related to grid constraints.

What are the laws & regulations on energy storage in the Netherlands?

No specific laws & regulations: In the Netherlands, energy storage is not described in Dutch laws and regulations as a specific item. Standard requirements: It has to meet standard requirements for production and consumption and some specific technologies that are part of the energy storage system must comply with standardisation.

How much does it cost to install solar panels?

The simple answer is that it will cost around EUR5000 (for six solar panels) and EUR12,000 (for 18 solar panels), including an inverter and installation, but excluding VAT. As of January 2023, you do not have to pay VAT on solar panels for your home. Solar panels are a big investment. Image: Freepik
