

Average solar storage container price per 100MW in Portugal

Is Portugal's solar auction a new era of battery storage?

Portugal's recent PV auction marks a new era of battery storage for the country, says UK consultancy Everoze. It notes that the auction was so competitive that the winners had to cut their expected remuneration in the solar+storage category to negative values.

Are companies willing to pay for solar-plus-storage in Portugal?

So companies, especially companies not yet present in Portugal, have a high willingness to pay for that access," he said. The auction was the first of its kind in Portugal that invited companies to lodge bids with a storage component included, with eight of the 12 batches awarded to solar-plus-storage projects.

How many solar projects will Portugal have in 2024?

The company's six solar projects are expected to be completed in 2024. Portugal is only realising one solar auction in 2020 as a result of the ongoing COVID-19 pandemic. As of 2021, however, the government is looking to carry out two per year, awarding a total capacity of 1GW per annum.

How many MW is a 100MW power plant in Portugal?

The final figure stood at 669MW as one batch of 100MW was only awarded 69MW. While the companies have a contract with the Portuguese national grid operator for 15 years, they have also received perpetual access to the grid, which was part of the reason for the low bids, according to Galamba. "The grid access is a very scarce resource in Portugal.

Is grid access a scarce resource in Portugal?

Secretary of state for energy João Galamba said that grid access is a scarce resource in Portugal in an interview with PV Tech. Image: Portuguese government.

Aggressive bidding meant that instead of the system paying for storage to be included, it was the projects themselves committing to pay a value to the system at an average of EUR37,000/MW of installed storage capacity per ...
