Are Smartwings motorized roller shades safe?

SmartWings motorized roller shades enjoy a fashion-forward style and can be widely used in all scenes. No matter the blackout or light-filtering fabric, both can keep out damaging UV rays and protect your privacy. The fabrics we use are also environmentally friendly and safe. Each fabric carries unique expectations and stories.

Do roller shades stay charged all year?

With the Solar Battery System, your roller shades stay charged all year 'round. With a segmented solar panel, your shades can be charged on cloudy days, or even when partially blocked. Your app clearly displays the battery charging state, so you'll always know when the battery is charging and its charge level.

What are smart automated and smartphone-controlled roller shades?

Smart automated and smartphone-controlled roller shades have many features, including automated tilting, simple scheduling, and sunrise/sunset automation.

How do I install a solar panel on my roller shades?

Set your roller shades to open as you get home, start to make breakfast, or close as you leave. With a maintenance-free battery system, you'll only ever need to install your roller shades and let the sun continue to power them. Install the solar panel using the included brackets or directly on the window using the included clips.

Why should you order a custom roller shade with smart motorization?

Order your custom roller shade with Smart Motorization and enjoy the benefits of countless features, including precise movement, a whisper-quiet mode, app control, and manual control options. Offering precise movement, a whisper-quiet mode, app control, and manual control options, MySmartRollerShades seamlessly integrate into your smart home.

Should I order roller shades for my house?

Ordering roller shades for your house can be a great way to enhance the aesthetics and functionality of your windows. MySmartRollerShades allow you to choose many different options to customize your roller shades to perfectly match your home. Choose between outside and inside mounts to suit your window configuration.

Q: Does the Solar Panel keep my roller shades battery charged, or do I still need to charge them once in a while? A: The Smarterhome Solar Panel is designed to keep your rechargeable battery at full charge when direct sunlight is available ...
