

Battery solo widget stopped working

What if a widget is not supported?

Widgets that are no longer supported will not be available. To check if the widget has been moved, swipe left or right through your Home screens. You can move the widget by touching and holding the desired widget, and then dragging it into another portion of the screen. You can also drag it into another Home screen.

Why are widgets not available for all apps?

Widgets may not be available for all apps. Work profiles managed by your company may restrict widgets. Check your Home screen settings by navigating to and open Settings, then tapping Home screen, and then tapping Hide apps on Home and Apps screens. If an app in the list has been selected, it will be hidden.

How do I check if a widget has been turned off?

To check if the widget has been turned off, open the phone to the main screen, then navigate to and open Settings, and then tap Cover screen. Tap Widgets, and then tap the switch next to the missing widget. Note: This option is not available on the Z Flip6.

Why can't I see a widget on my home screen?

If you do not see the widget on the Home screen, it may have been moved to another Home screen, has been removed, or is no longer supported. Widgets that are no longer supported will not be available. To check if the widget has been moved, swipe left or right through your Home screens.

How do I remove a widget?

To remove a widget, touch and hold it, and then tap Remove. If you are unable to remove the widget, restart your device and try adding it again. Make sure the screen is responding to your touch. If the screen isn't properly responding to touch, check out our touchscreen issues guide for assistance. Remove and re-add the widget.

How do I remove a widget from a Z flip6?

Tap Widgets, and then tap the switch next to the missing widget. Note: This option is not available on the Z Flip6. To check if the widget has been removed, double tap the Cover screen, and then touch and hold a widget. Swipe left until you see the Add widget screen.
