

# Best portable solar battery charger 2018

What is the best portable solar charger?

The X-Dragon 20W is ranked as the best overall portable solar charger. It offers efficient charging for various devices, including phones and tablets. With its compact design and lightweight construction, it's perfect for outdoor activities like camping or hiking.

What are portable solar panels & solar battery chargers?

Portable solar panels and solar battery chargers are easy-to-use devices that provide backup power to anyone who happens to be away from a working power outlet, including hikers, car campers, and even people looking to keep their devices running during a power outage at home.

Do portable solar chargers work with batteries?

Portable solar chargers pair well with a rechargeable battery pack (either a single Li-Ion pack or a charger for AA-style batteries), and some of them even come with a built-in battery pack.

What is the best portable solar panel?

The best portable solar panel for most people is the BigBlue 3 28W Solar Charger. After hours of testing with a load tester and a multimeter, this charger ranked at or near the top of our review in the key areas of power output, watts per ounce, and efficiency.

How to choose a solar battery charger?

Factors to consider when choosing a solar battery charger include power output and charging capabilities, size and portability, and warranty and reliability. These solar chargers offer efficient charging for different devices like phones and tablets. They are compact, lightweight, durable,

What is a solar battery charger?

When you're shopping, the terminology can be confusing. By "solar battery chargers," we mean lightweight, lower-wattage devices that can directly charge personal electronics while on the go, typically via USB port. "Portable solar panels" are their larger, heavier, and higher-power siblings.
