Best features: QiSa Solar Charger The QiSa Solar charger is our pick for best features. With USB-C and USB-A compatibility, a foldable design, wireless charging, built-in flashlight, and the ability to charge three devices at once - this model definitely packs a punch.

Which solar charger has a power bank?

But if you're looking for a model that includes a power bank, our pros suggest this 15-watt solar charger from SunJack. With a waterproof IP67 rating, this solar panel and battery pack combo is one of the most rugged picks you can find.

Do you need a solar phone charger?

You might find yourself relieved to have a solar phone charger on hand, which not only tends to be lightweight and easy to carry around, but these gadgets effectively leverage the sun's power to power up your devices.

Are solar phone chargers good for camping?

Solar phone chargers are an excellent addition to have for your next camping or backpacking trip. However, it's important to keep in mind that the effectiveness of a solar phone charger is weather-dependent. Solar panels are designed to function in cloudy or overcast conditions, but just at a lower rate than on a clear, sunny day.

How much does a solar phone charger cost?

Solar phone chargers are relatively affordable, with most on the market ranging from \$20 to upwards of \$100. The price can vary depending on your power station's brand, size, and additional features.

Should I buy a solar charger?

While it depends on the type of solar charger you get, the power bank I tried proved to be essential on a month-long trip camping, hiking, and road tripping through Oregon and Washington. We tested a variety of solar chargers on boats, while biking, and doing other activities where access to electricity was limited.
