

Business energy storage cost breakdown in Romania 2025

Which Romanian companies are adding Bess to their renewable assets?

Other Romania-based companies, such as Parapet and Waldevar Energy, have told pv magazine that adding BESS to their renewable assets is a top priority. The May edition of pv magazine features an in-depth look at Romania's solar and energy storage markets.

What is Romania's energy strategy for 2025 - 2035?

The Romanian government has introduced its most ambitious energy roadmap to date: the Energy Strategy for 2025-2035, with a forward-looking vision for 2050. This strategic document charts Romania's path toward sustainable energy, aligning with EU climate targets while addressing national energy security, competitiveness, and economic needs.

Is the Bess market heating up in Romania?

The BESS market in Romania is heating up, say local analysts and insiders. Irene Mihai, policy officer at the Romanian Photovoltaic Industry Association (RPIA) recently told pv magazine that a realistic target for the utility-scale BESS segment in Romania "would be around 2 GWh (around 1 GW of installed capacity)" for 2030.

How does Romania reduce reliance on imports?

Diversification of Energy Resources: Romania seeks to reduce reliance on imports by capitalizing on domestic natural gas reserves, renewable energy, and nuclear energy. New extraction projects aim to safeguard supply chains and reduce import dependency.

Why is energy security important in Romania?

Energy security remains a cornerstone of the strategy due to Romania's unique geographical position and evolving energy demands: Diversification of Energy Resources: Romania seeks to reduce reliance on imports by capitalizing on domestic natural gas reserves, renewable energy, and nuclear energy.

What will happen in the energy sector in 2025?

In 2025, several important movements are expected in the energy sector, as well as developments that we will detail further. By far the most important movement in the energy sector is related to the fact that the cap on energy and natural gas prices expires on March 31, 2025.
