

# Bypass energy storage

What is ATS bypass cabinet?

ATESS bypass cabinet is designed to be used together with bidirectional battery inverter realize seamless transfer between on and off grid mode automatically. ATS is an accessory of American standard HPS,when both the grid and the DG need to access HPS,ATS will be used to switch between grid and DG automatically.

Is the energy storage mandate a big change?

This is a big change towards rationalization of renewablesbut hidden within that is a removal of the energy storage mandate," George Hilton,research and analysis manager at S&P Global,tells ESS News. S&P Global estimates that the storage mandate has driven between 50 and 75% of domestic demand.

How will the energy storage mandate impact China?

S&P Global estimates that the storage mandate has driven between 50 and 75% of domestic demand. With China accounting for around 56% of the global energy storage demand in 2024,the impact of such a policy change will be massive.
