

# Can u put regular batteries in solar lights

Can I use a regular battery in a solar light?

No, you generally cannot use a regular battery in a solar light. Solar lights are designed to work with rechargeable batteries. Solar lights typically come with rechargeable nickel-metal hydride (NiMH) or lithium-ion batteries.

Can a solar light be used without a rechargeable battery?

Some solar lights cannot be used for long periods without rechargeable batteries because their terminals can corrode. The presence of regular batteries can exacerbate this corrosion and cause the light to stop working properly. Removing the regular batteries will prevent corrosion and allow you to use your solar light again.

What happens if you put a regular battery in solar lights?

Here are the consequences of placing a regular battery in solar lights: Some solar lights cannot be used for long periods without rechargeable batteries because their terminals can corrode. The presence of regular batteries can exacerbate this corrosion and cause the light to stop working properly.

Should I replace a rechargeable battery for my solar lights?

If you still need to turn on your lights while looking for replacement batteries for your old rechargeable batteries that are losing their ability to hold a charge, a regular alkaline battery can be used as a temporary power source, but replace it as soon as possible. Solar lighting systems might fail for a variety of causes.

How do I know if my solar lights need a new battery?

With regular alkaline batteries installed, go into a dark room and turn your solar lights on to test if the illumination is back to normal. If it is, then it's time you replace your rechargeable batteries with a new set. Be sure to uninstall the regular alkaline batteries from your solar lights to avoid any possible damage.

Which batteries should I use when replacing solar light batteries?

When replacing solar light batteries, use NiCd or NiMH rechargeable batteries. Using regular batteries is not worth the risk of permanent damage to your solar lights.
