

Charge controller solar trickle charge rv batteries during storage

A solar trickle charger will provide the opportunity to keep your RV battery from dying out when it is not in use. But which solar trickle chargers work best for RVs, motorhomes, and caravans? The best solar trickle chargers for RVs have at ...

The best solar trickle charger for an RV should produce enough amps to make up for the self-discharging that happens when batteries are on standby. For an RV battery, a trickle charger should have at least 15-20 watts of maximum power. ...
