Who is China Electric Power Equipment & Technology (CET)?

China Electric Power Equipment and Technology Co.,Ltd. (abbreviated as "CET") is a wholly-owned subsidiary of State Grid Corporation of China. It serves as an integrated international business platform for State Grid's overseas power grid investment, construction, and operation.

Who is China electric equipment group (Ceeeg)?

China Electric Equipment Group (CEEG), established in 1990, is a global leader committed to "Delivering Premium Power to the World."

How many electrochemical storage stations are there in China?

In terms of developments in China, 19 members of the National Power Safety Production Committee operated a total of 472 electrochemical storage stations as of the end of 2022, with a total stored energy of 14.1 GWh, a year-on-year increase of 127%.

Does China's Energy Storage Technology set a new global benchmark?

Chen Haisheng, Chairman of CNESA, noted: "China's CAES technology has advanced from 100 MW to 300 MW in a decade, setting a new global benchmark." The Energy Storage Industry White Paper 2025 reveals that global new energy storage installations reached 165.4 GW in 2024, with China contributing 43.7 GW of new capacity.

How big is China's energy storage capacity?

According to CNESA data, the capacity of independent energy storage stations planned or under construction in China in the first half of 2022 was 45.3 GW, accounting for over 80% of all new energy storage projects planned or under construction.

Will China's energy storage capacity exceed 50 GW by 2030?

Industry projections indicate that China's compressed air energy storage capacity will exceed 50 GW by 2030, enabling annual CO2 emission reductions of over 200 million tons - equivalent to shutting down 60 one-gigawatt coal-fired power plants - thereby providing robust support for building a new-type power system.
