

Where can I find high-quality solar batteries in South Australia & Adelaide?

Solar Power Direct provides high-quality solar batteries in South Australia & Adelaide. Explore our battery storage solutions for homes and businesses today!

Can I install a battery in South Australia?

Yes, you can install a battery in South Australia to enhance the efficiency and reliability of your solar system and store excess power generated during the day, thereby minimising exported solar power to the grid that earns you a low return of 0.03-0.05 c/kWh.

Are commercial solar batteries a good investment?

Commercial solar batteries offer transformative benefits for businesses, significantly enhancing energy efficiency, reducing operational costs, and achieving greater energy independence. Enhanced Energy Efficiency Commercial solar batteries are pivotal in optimising energy usage.

What is a solar battery system?

Designed to store excess solar energy, home battery systems provide power during peak usage times, blackouts, or when solar production is low. Futureproof today with Solar Storage. Choose from a range of battery capacities with guidance from our in-house experts to meet your storage needs, ensuring more independence in operational expenses.

Is solar a good choice for South Australians?

"Going down the path of solar was an easy choice. We've already seen a reduction in our energy usage by about 30%, which is close to \$19,000 in savings per year." - Damian Torresan, Director of Torresan Estate. Ben Owen: For a very long period of time, RAA has been supporting members and South Australians stay on the road.

Are solar batteries a good choice for your business?

For businesses with high energy usage during peak hours, solar batteries with a larger capacity and fast-charging capabilities are ideal. These batteries ensure that sufficient power is stored during off-peak hours for use during high-demand periods.

From cellar doors to corner stores, we're passionate about bringing commercial solar to businesses in Adelaide and across South Australia. Through our range of commercial solar panels, inverters and batteries, we help SA businesses save ...
