

Deka solar 8a8d agm battery

What is a Deka 8a8d battery?

The Deka 8A8D (8A8DM) is an American made AGM (absorbed glass-mat) deep cycle battery. The AGM technology allows for a completely sealed maintenance-free battery with no sulfuric acid leaks, no acid clean up, and more power in the same space when compared to conventional batteries. It has an under 2% per month self discharge rate.

What is a Deka 8a31dtm battery?

The Deka 8A31DT (8A31DTM) is an American made AGM (absorbed glass-mat) deep cycle battery. The AGM technology allows for a completely sealed maintenance-free battery with no sulfuric acid leaks, no acid clean up, and more power in the same space when compared to conventional batteries. It has an under 2% per month self discharge rate.

What are Deka AGM batteries used for?

Deka AGM batteries are purpose built in the USA for motorcycles, personal watercraft, ATV's, snowmobiles and more. Use our deep cycle battery power calculator to ensure that you can meet the power requirements of your accessories.

What makes Mk / Deka solar batteries different?

Advanced American Technology and the use of the most modern computer-aided design and manufacturing techniques combine to make MK /Deka Solar batteries the standard by which all other solar batteries are measured. Our Solar VRLA Sealed Batteries are the best the PV /Solar Battery market has to offer.

How much does the Deka AGM battery weigh?

The Deka AGM Battery has an item weight of 30 pounds and dimensions of 12.716 x 6.67 x 7.12 Inches. It is a bit heavy, so make sure that you have enough room in your vehicle before purchasing this battery type or another one with similar measurements.

Where are Mk / Deka batteries made?

MK /DEKA batteries are made in the United States in a factory that exceeds all environmental regulations and takes pride in their recycling efforts, products, and people.
