

Dual battery charger solar

If you have a dual battery bank we have a solution. Independently and simultaneously monitor and control the charge of two different kinds of battery banks with a single charge controller. This 5-stage, PWM charge controller can ...

This controller is designed specifically for charging two independent battery banks. Charge controller for dual battery systems Model EP Duo 12/24V 10A (for 50 - 140 Watts of solar energy) Model EP Duo 12/24V 20A (for 150 - 280 Watts ...

This is especially important when using temperature sensitive gel batteries. This option will increase battery life by 100-200 charge/discharge cycles. The sensor plugs into the Dual Bank Battery Controller and is attached to the top of a ...
