

# Energy storage battery vietnam factory

Is a battery energy storage system coming to Vietnam?

In September, solar and storage EPC and O&M provider Borrego selected Gotion High-Tech as a supplier of DC-block battery storage equipment for projects in the US, with deliveries scheduled to begin next year. Meanwhile, in Vietnam, the market for battery energy storage systems (BESS) has yet to take off.

Where is a battery factory located in Vietnam?

The pair broke ground on a cell factory last week at an industrial park in Vung Anh Economic Zone, Ha Tinh, Vietnam. Requiring around US\$275 million investment, the 14-hectare production facility will have an annual production output of 5GWh, equivalent to about 30 million battery cells.

Did Marubeni launch a megawatt-scale battery storage demonstration project in Vietnam?

The project's official inauguration event held in December. Image: VinGroup. A green energy subsidiary of Japanese conglomerate Marubeni has brought online a megawatt-scale battery storage demonstration project in Vietnam.

What is battery energy storage system (BESS)?

Battery Energy Storage System (BESS) contributes critical roles to accelerating the use of Renewable Energy—a clean energy source in Vietnam and globally. In addition, BESS is also the solution that has been successfully and effectively applied by many countries around the world to support the operation of the power grid.

How much money is needed to build a new battery factory?

Requiring around US\$275 million investment, the 14-hectare production facility will have an annual production output of 5GWh, equivalent to about 30 million battery cells. The two companies are funding their joint venture (JV) factory, which they claimed will have a high level of automation, and optimised production processes.
