

Energy storage epc qualification

What is an EPC & why do I need one?

An EPC plays a critical role in the design and construction of new battery energy storage projects. We're keen to keep an up-to-date and free-to-access list for all market participants. Contact: web enquiries webenquiries@anESCO.co.uk

What are the current requirements for an EPC Certificate?

What are the current requirements? Non-exempt properties must have a valid EPC certificate to be let or sold, currently EPC certificates are valid for 10 years though they should be updated if significant structural changes are made. For commercial buildings there are also requirements over displaying your EPC.

What services does EPC energy offer?

With over 650 MWh installed and commissioned, our experienced team can provide in-house design and engineering services, along with end-to-end support including commissioning, operations & maintenance, plus extended warranties. We make energy efficiently. Copyright © 2024. EPC Energy, Inc. CSLB #1086692.

Does Clarke Energy provide full EPC wrap?

With a strong balance sheet, Clarke Energy will provide Full EPC Wrap for BESS projects and will also consider Balance of Plant EPC on larger BESS schemes. Clarke Energy has a strong aftersales service support network with over 130 UK based Field Service Engineers.

Do you provide full EPC Wrap services?

We provide Full EPC Wrap services and have the capability to offer long-term Operations & Maintenance contracts for both BESS and PV projects. Our teams are focused on safety, timely delivery, and budget adherence, ensuring that we meet and exceed client expectations.
