

Energy storage fire aerosol automatic fire extinguishing device

What is a small space fire extinguishing system?

Small space fire extinguishing systems have another beautiful name called "Minisol"; it is small, compact, and very space-saving; it is also intelligent and versatile, very suitable for small space fire suppression; it is a clean agent suppression generator and environmentally friendly; it is a revolutionary fire protection product in the world.

What is a NAFEG fire suppression system?

NAFEG fire suppression systems mainly contain the latest generation of FPC component containing potassium salts with non-pyrotechnic materials. When the FPC is activated, it transforms into a highly effective and effective condensed aerosol for fire extinguishing and spreading rapidly.

What is a FirePro aerosol fire suppression system?

FirePro aerosol fire suppression systems employ our patented FirePro Compound (FPC) technology that is the result of intensive and extensive R&D. The modular, pre-engineered FirePro systems have undergone tests and are certified according to the most stringent international standards and requirements.

What is a Minisol fire extinguisher?

The minisol range of fire extinguishers is aimed at extinguishing fires in small enclosed spaces. Lithium battery fire extinguishers are tiny in size, specially designed, and applied in lithium battery boxes, energy storage containers, electrical cabinets, renewable power stations, and power exchange cabinets.

How does FirePro work?

In contrast to alternative suppression methods such as (gaseous or fire sprinkler systems), the fire is suppressed by interrupting the chemical chain reactions of the fire with negligible O₂ reduction. Furthermore, FirePro is compatible with conventional and addressable fire alarm systems.

What are lithium battery fire extinguishers?

Lithium battery fire extinguishers are tiny in size, specially designed, and applied in lithium battery boxes, energy storage containers, electrical cabinets, renewable power stations, and power exchange cabinets. We can provide a complete set of fire protection system solutions in fields of renewable energy.
