Should system integrators outsource manufacturing?

The norm to-date for system integrators has been to outsource manufacturing to someone else. Kepshire agreed with Energy-Storage.news suggestion that manufacturing in-house was most likely better for quality control, but did not think that the industry was necessarily heading that way.

How will energy storage impact New York?

Storage will increase the resilience and efficiency of New York's grid, which will be 100% carbon-free electricity by 2040. Additionally, energy storage can stabilize supply during peak electric usage and help keep critical systems online during an outage. All of this while creating an industry that could employ at least 30,000 New Yorkers by 2030.

Why is energy storage important?

Energy storage is essential for creating a cleaner, more efficient, and resilient electric grid. Additionally, these projects will provide meaningful benefits to Disadvantaged Communities and Low-to-Moderate Income New Yorkers. Energy storage is essential to a resilient grid and clean energy system.

What are New York state's energy storage goals?

Learn more about installed energy storage projects and New York State's progress toward its energy storage goals. New York's Climate Leadership and Community Protection Act (Climate Act) codified a goal of 1,500 MW of energy storage by 2025 and 3,000 MW by 2030.

Who are the largest system integrators in the Bess industry?

Foreground and background images, respectively: BESS systems deployed by Sungrow and Tesla, the two largest system integrators globally according to S&P. We hear from S&P Global Commodity Insights analysts and a former Fluence executive about the major trends shaping the competitive landscape of system integrators in the BESS industry.

Can a system integrator save money?

By doing this, IPPs like NextEra in the US and Eco Stor in Germany (two examples) can save on the cost of hiring system integrators, and this approach accounts for a 'significant share' in some local markets, Shi and Rambli said.
