Where is the first battery energy storage system in New York City?

Image: Ninedot Energy. The first battery energy storage system (BESS) in New York City using Tesla Megapacks, a 12MWh system in the Bronx by NineDot, has been inaugurated. Community-scale renewable energy project developer NineDot Energy unveiled the 3.08MW/12.32MWh BESS unit yesterday (9 August).

Why is energy storage important?

Energy storage is essential for creating a cleaner, more efficient, and resilient electric grid. Additionally, these projects will provide meaningful benefits to Disadvantaged Communities and Low-to-Moderate Income New Yorkers. Energy storage is essential to a resilient grid and clean energy system.

What is the FPL Manatee energy storage center?

The FPL Manatee Energy Storage Center is a 409 MW battery energy storage system (BESS) located in Parrish, Florida. The project was developed by Florida Power & Light (FPL) and is owned and operated by NextEra Energy Resources. The FPL Manatee Energy Storage Center is the largest solar-powered battery storage facility in the world.

How will energy storage impact New York?

Storage will increase the resilience and efficiency of New York's grid, which will be 100% carbon-free electricity by 2040. Additionally, energy storage can stabilize supply during peak electric usage and help keep critical systems online during an outage. All of this while creating an industry that could employ at least 30,000 New Yorkers by 2030.

What is the RES Top Gun Energy Storage Project?

The RES Top Gun Energy Storage project is a 30-MW/120 MWh lithium-ion battery energy storage system located in San Diego, California. The project was developed by RES Group and is owned and operated by San Diego Gas & Electric (SDG&E). The project was completed in September 2021 and cost US\$60m to build.

What is New York state's energy storage plan?

New York State aims to reach 1,500 MW of energy storage by 2025 and 6,000 MW by 2030. Energy storage is essential for creating a cleaner, more efficient, and resilient electric grid. Additionally, these projects will provide meaningful benefits to Disadvantaged Communities and Low-to-Moderate Income New Yorkers.
