

# Expected ROI of lithium solar battery project in Argentina 2025

How will Argentina support the growth of the lithium industry?

Argentina will almost certainly continue to facilitate the growth of the lithium industry by welcoming more foreign and local investments, opening up new mines and potentially developing partnerships with neighbours Chile and Bolivia. Local communities will more than likely attempt to challenge the expansion through various non-violent means.

How much lithium will Argentina produce in 2025?

Salar de Olaroz. Image from Orocobre, now Arcadium Lithium. Argentina, the world's fifth-largest lithium producer, expects to produce 130,800 tonnes of lithium carbonate equivalent (LCE) in 2025, a 75% increase from 2024, the Argentine Chamber of Mining Companies (CAEM) said Tuesday.

What is happening in Argentina's lithium carbonate production capacity?

Argentina's lithium carbonate production capacity has already tripled in the last two years. Around 85 projects are currently at various stages of development in northwestern Argentina, ranging from basic exploration to infrastructure building.

Does Rio Tinto have a lithium project in Argentina?

Rio Tinto has approved \$2.5 billion<sup>1</sup> to expand the Rincon project in Argentina, the company's first commercial scale lithium operation, demonstrating its com...

Will Rio Tinto invest in lithium?

With that acquisition and the decision to expand its own Salar de Rinco's plant, there is no doubt that Rio Tinto has a clear goal with lithium for the next decade. "The investment will support Argentina's current ambition to become one of the world's leading lithium producers," the company said.

Is Rio Tinto acquiring Arcadium lithium?

After acquiring the Arcadium Lithium operations, mining company Rio Tinto has now announced a US\$2.5 billion investment to expand lithium carbonate production at its Rinco de Salta project. This will be the Anglo-Australian company's first commercial-scale operation, and obtained its Environmental Impact Declaration a year ago.

Which major battery projects are currently in testing and expected to reach commercial operation in 2025. How CAISO's Resource Adequacy market is shaping battery investment and financing decisions. To get full access to Modo ...
