

Expected ROI of off grid solar storage project in Luxembourg 2025

Why did solar market expectations drop in 2025?

The wavering corporate Power Purchasing Agreement (cPPA) market also contributes to the reduced solar market expectations, with 2025 bringing a 41% drop between deals signed between Q1 and Q2.

How did the energy crisis affect home solar & storage?

constant as the country was already supporting residential solar & storage. The impact of the energy crisis also boosted home PV installations in 2023, which went from 2.7 GW to 6.3 GW in Germany (+133%), and from 1 GW to 1.8 GW in Italy (+80%). Installa

What will Solar do in 2025?

In 2025, the segment will likely contribute to around half of all new capacity additions. Since 2022, improved auction design has helped restore confidence, with 2024 seeing a record 20 GW of utility-scale solar awarded across the EU.

Should storage assets be reflected in grid charges?

balance markets. Neither should storage systems, independent of their size. The guidance should outline how storage assets help the system and therefore their contribution (also in terms of cost savings for the system) should be reflected in the grid charges by removing double-
