

# Expected ROI of photovoltaic ESS project in Malaysia 2026

How will LSS6 & BESS work in 2026?

Petra said LSS6 and BESS are expected to further increase the capacity of renewable energy in the national electricity supply system and supply grid, respectively. Both the LSS6 and BESS programmes are scheduled to be operational in 2026, according to EC.

What factors influence the ROI of a battery energy storage system?

Several key factors influence the ROI of a BESS. In order to assess the ROI of a battery energy storage system, we need to understand that there are two types of factors to keep in mind: internal factors that we can influence within the organization/business, and external factors that are beyond our control.

How do I assess the ROI of a battery energy storage system?

In order to assess the ROI of a battery energy storage system, we need to understand that there are two types of factors to keep in mind: internal factors that we can influence within the organization/business, and external factors that are beyond our control. External Factors that influence the ROI of a BESS

Who is Maybank IB's top solar EPCC stock pick?

Among solar EPCC players, Maybank IB has Solarvest Holdings Bhd as its top stock pick. "We are optimistic on Solarvest's prospects for its growing order book and asset base amid strong demand for RE over the medium to long term. "Solarvest currently trades at 20 times 2025 earnings per share.
