

Expected ROI of standalone energy storage project in Vietnam 2026

How can Bess help Vietnam achieve energy security & sustainability?

As Vietnam charts its path towards energy security and sustainability, the integration of BESS emerges as a critical enabler of this transition. By embracing BESS, Vietnam has the potential to lead the way in clean energy innovation, fuelling economic growth while safeguarding the planet for future generations.

Is energy storage system a good investment?

According to international energy experts, when RE electricity rate reaches 15% up, the investment in energy storage system is economically efficient. So, in many countries over the world, the energy storage systems have become the necessary technologies in demand side management, RE and smart grid development.

What is EVN's largest power storage project?

Bac Ai pump-storage hydropower with a capacity of 1200MW is the largest power storage project that EVN makes investment with expectation to be put into operation in 2026.

What is the growth rate of energy storage industry?

It is forecast that the compound annual growth rate (CAGR) of this sector will maintain around 6.9% to the size of the market. This market will reach 500 billion USD by 2025. Large-scale energy storage technologies will mainly be hydroelectricity and chemical batteries.

Expected ROI of standalone energy storage project in Vietnam 2026
