

# Fenix 6x solar battery life

How long does the Garmin Fenix 6x pro solar battery last?

The battery life compared to many smartwatches is very long on the Garmin Fenix 6X Pro Solar, coming in at 21 days on standby if you don't use the onboard music player or fire up the GPS.

What is the Garmin Fenix 6x Pro Solar?

The Garmin Fenix 6x Pro Solar is a GPS sports watch with advanced features. It is often compared to a Swiss Army Knife due to its numerous functions, which have evolved with technology.

Does Fenix 6x have solar?

The solar feature is only available on the Fenix 6X Solar, and not on any other units. This falls in line with Garmin piloting new technologies on the Fenix 'X' series each year. The first year (Fenix 5X) it added maps when the rest of the series didn't have it. Last year (Fenix 5X Plus) it added PulseOX, a first on Garmin devices.

How long does a Garmin Fenix 6 last?

According to Garmin, you get about 21 days of watch mode and 60 hours of activity tracking without any solar or battery saving tweaks. One of the great things on the Fenix 6 is that it gives you a battery time estimate (5 days here). You can also just show the percentage.

How long does a Fenix 6 last?

The Fenix 6 series is a slate of more than a dozen different watch variants, with battery life extending upwards of 120 days. Yes, days. And GPS-on time for ultra-type scenarios at nearly 150 hours. Or in full expedition mode GPS-on time at 56 days. Yes, again, days. Obviously, there are some caveats to those numbers - but we'll get to those.

Does the Fenix 6x have a power mode?

The first year (Fenix 5X) it added maps when the rest of the series didn't have it. Last year (Fenix 5X Plus) it added PulseOX, a first on Garmin devices. And this year, it's solar. However, the new Power Modes and Power Management features are available on all units, yes, all Fenix 6 units. We'll start on the Fenix 6X Solar though.
