

First car with solid state battery

1 · Toyota's first solid-state battery is expected to offer a 621-mile driving range with an 80 percent fast charging time of just around 10 minutes. Just for a comparison, the Tesla Model Y has a 336-mile range and about 15-minute fast ...

IM Motors claim that the L6, due to launch in May, will come with the industry's first mass-produced ultra-fast charging solid state battery. More details will be announced at the IM L6 Technology Conference on April 8 but ...

After intensive testing on various test benches, the prototype solid-state battery was integrated into an EQS at the end of 2024. The all-electric car from Mercedes-Benz was slightly modified to fit the solid-state battery and ...
