

# Ganfeng lithium energy storage system products

What are the applications of Ganfeng Lithium's products?

Our products have been applied to electric cars, energy storage, 3C products, chemical and pharmaceutical fields, etc. Ganfeng Lithium's business includes upstream resource extraction, midstream lithium salt processing and Lithium metal refining, downstream lithium battery production and battery waste management, etc.

What is Ganfeng lithium?

With Ganfeng Lithium's brand, technology, and resources, and a promising industry, Ganfeng LiEnergy is committed to solving energy problems with the most sustainable resources and the most advanced technologies, becoming a pioneer and a leader of the lithium battery industry globally.

Where are Ganfeng's lithium resources located?

Ganfeng's lithium resources are located in several countries and regions worldwide, and we have advanced technologies for 'lithium extraction from brine', 'lithium extraction from ore', and 'lithium recycling'. Our production capacity of lithium compounds and lithium metals is among the highest in the world.

When will Ganfeng lithium integrate its battery business?

In May 2020, Ganfeng Lithium will integrate all its battery businesses into Ganfeng Lithium Technology Co., Ltd. With the integration of the lithium battery business, the expansion of Ganfeng's lithium battery business will further accelerate.

Who is Ganfeng lithium group?

Ganfeng Lithium Group Co., Ltd. manufactures and sells lithium products in Mainland China, rest of Asia, the European Union, North America, and internationally. It operates through three segments: Lithium Metal and Compound, Lithium Battery, and Lithium Ore Resource and Others.

Can solid-state batteries be used in Ganfeng lithium batteries?

In the future, solid-state battery products may be used in Ganfeng Lithium's power batteries, consumer batteries and other products, which can greatly enhance safety, endurance and cycle life, and continue to enhance product competitiveness.
