

# Geely solid state battery

Who makes Geely Auto batteries?

Geely Auto's batteries have been supplied mainly by suppliers including Contemporary Amperex Technology Co Ltd (CATL, SHE: 300750), while it has also been developing its own batteries. The company had formed power battery joint ventures with CATL, Farasis Energy and South Korea's LG Energy Solution over the past few years.

What is a Geely Aegis Short Blade Battery?

The battery, the Aegis Short Blade Battery, is Geely Auto's next-generation, in-house developed battery with best-in-class battery life, charging speed and safety, the company said today.

Who is the battery cell supplier for Geely?

The Chinese battery cell manufacturer and Volkswagen partner Gotion High-Tech has signed a supply agreement with Geely New Energy Commercial Vehicle. Under the agreement, Gotion will supply battery cells for around 126,000 Geely light commercial vehicles such as minivans and light trucks between 2022 and 2024.

How does Geely's new battery work?

Geely's newest battery also uses long, thin carbon nanotubes to create a "highway" for ion transmission as well as additives to improve film permeability making it easier for lithium ions to travel between electrodes thereby greatly improving fast charging performance.

Where can I buy a Geely LC?

The LC is sold in Indonesia as a Geely Panda. The LC is sold in New Zealand as a Geely LC Hatch. A local company, Micro Cars, offers the LC in Sri Lanka. It is domestically assembled from complete knock down kits. Under the name Geely Pandino, The LC is sold in Egypt.

Significant Progress for Gotion's "Jinshi" All-Solid-State Battery! At its 2025 Global Technology Conference held on May 16-17, Gotion High-Tech announced major advancements for its highly anticipated "Jinshi" all-solid ...

EHFCV June 7, 2024 Powertrain, Safety/Security Semi-solid-state battery Dimensions: 310x102x10.3 mm Energy density: 320 Wh/kg Solid-state battery Dimensions: 135.5x104x4 mm Energy density: 400 Wh/kg # Battery Previous ...

To clarify: Farasis refers to the cells produced since 2022 with a semi-solid electrolyte, specifically a "gel-first technology," as the first generation. These cells are used by Dongfeng, GAC, Geely and "many foreign customers." ...
