

Gel battery storage project financing options in Vietnam 2026

Will EVN and ADB invest in a battery energy storage system?

EVN and ADB agreed to coordinate further efforts to elaborate the project for submission to relevant authorities and consequential commencement and financing arrangements. State-owned utility Vietnam Electricity (EVN) and the Asian Development Bank (ADB) have discussed investing in a pilot Battery Energy Storage System (BESS) project in Vietnam.

Does VinFast have a battery manufacturing facility in Vietnam?

Even with such advancements, VinFast has constantly sought new funding sources to develop its battery-making capability. Last December, VinFast announced its formal application to the Development Financial Corporation (DFC) for a US\$500 million loan to establish a lithium-ion battery manufacturing facility in Vietnam.

How can Bess help Vietnam achieve energy security & sustainability?

As Vietnam charts its path towards energy security and sustainability, the integration of BESS emerges as a critical enabler of this transition. By embracing BESS, Vietnam has the potential to lead the way in clean energy innovation, fuelling economic growth while safeguarding the planet for future generations.

Why is a lack of green finance a problem in Vietnam?

"The lack of green finance sources and support policies from the government has undermined customers' confidence," said Trinh Viet Dung, the chief technology officer of Cenergy, a battery developer in Vietnam. "For imports of bulky battery systems in large quantities, there are large upfront costs and shipping fees."

Is Vietnam ready for a 300MW Bess target?

While Vietnam has taken initial steps by including a 300MW BESS target in the PDP8, more ambitious action is needed. The declining cost of lithium battery cells, coupled with technological advancements, has made BESS increasingly affordable and accessible, according to Contemporary Amperex Technology, the world's largest battery manufacturer.

Will Alterno be the world's first sand battery producer?

Claiming to be the world's first producer of sand batteries dedicated to agriculture, Alterno has a goal of achieving a 25 per cent share of agricultural heating supply by 2030, with its primary markets being Vietnam, Indonesia and South Africa.

The joint venture is collaborating with Honeywell to integrate Vietnam's first grid-connected battery energy storage system (BESS) project in the 50 MWp Khanh Hoa Solar plant. The project aims to demonstrate the commercial viability, ...
