

Government procurement price of Solar Panel in Greece

How much does a solar system cost in Greece?

The average cost of a solar system in Greece is EUR3 per watt. To account for the typical energy usage of the average home in Greece, most homeowners require a 4.2-kilowatt system. Using the per-watt figure above, a solar installation costs about EUR8,600, or EUR6,450 after the federal solar tax credit of 25% is applied.

How many renewable electricity auctions will Greece hold in 2024?

The Greek Ministry of Environment and Energy released an updated version of the timetable for renewable electricity auctions. The new schedule sets the time and the capacity for each auction, while it calls for four auctions to be held this year and five in 2024.

How much solar capacity will Greece have in 2022?

In 2022, 1.4 GW of new PV projects were connected to the grid, bringing the cumulative capacity to 5.5 GW. This was the best performance ever for the Greek solar sector. Still, it looks modest if you compare it with the expected performance of the market in 2023 which should bring online around 1.7 GW of solar capacity.

Why is solar power growing in Greece?

However, the utility-scale and residential self-consumption segments are experiencing noteworthy growth for the first time. The bright weather across the country helped solar PV to contribute to some 13.6% of total Greek electricity production in 2022, breaking yet another record.

How is storage regulated in Greece in 2022?

In 2022, the Greek Parliament also passed a thorough regulatory framework for storage. Large-scale storage are selected through a bidding process, with a total tendered power capacity of 1,000 MW and at least 2.6 GWh of storage capacity.

How much money does a solar energy programme cost?

With a budget of EUR 200 million (USD 217.5m), the programme will enable households and farmers to install up to 10.8 kW of PV capacity and 10.8 kWh of battery storage, Energy Minister Kostas Skrekas announced.

Solar Systems Hellas is one of the leading companies in the sector of Renewable Energy Sources in Greece. The object of the company is the marketing, storage and promotion of photovoltaic equipment for the construction and installation of ...
