How much will Cyprus' recovery and resilience scheme cost in 2022-2023?

The scheme has a more generous budget - up 40 per cent to more than EUR20m for 2022-2023 - with the possibility of a further increase, with grants seeing a rise of 50 per cent, the energy ministry said. Funds have been secured from the Recovery and Resilience scheme Cyprus Tomorrow.

How much does a photovoltaic subsidy cost?

The scheme covers photovoltaics for buildings that secured a building or town planning permit before January 1, 2017. The subsidy is EUR375 per kilowatt, with a maximum grant of EUR1,500. In line with policy to support mountain communities, households there are eligible to 50 per cent more.

How much does a solar system grant cost?

The scheme covers complete systems (cylinder and solar panels) installed by licensed professionals. The grant is for EUR450 per home/system (up 28.5 per cent from the EUR350 of last year), while homes in the mountain areas qualify for double the amount -- EUR900 (from EUR700 last year).

What is the recovery and resilience scheme Cyprus Tomorrow?

Funds have been secured from the Recovery and Resilience scheme Cyprus Tomorrow. Energy Minister Natasa Pilides said that a more generous budget and improvements to the scheme were part of the huge effort underway by the government to support households cut energy costs.

How much energy does a roof insulation cost?

Indicatively, in the case of roof insulation of a 130 square metre home for a cost of EUR5,600, energy savings are calculated at 6,782 Kwh or EUR1,300 a year. With a grant of EUR2,250 and EUR3,375 in the mountains, depreciation will take 2.5 and 1.7 years respectively.
