

# Home battery pack project financing options in Guernsey 2030

How many solar panels are installed in Guernsey?

Since 2013, we've installed over 3.1 megawatts of energy generation capacity, equating to over 7,000 solar panels, all of which contribute to the States of Guernsey's ambitious net zero 2050 targets. We partner with brands like Moxon SunPower and SolarEdge, giving clients access to the most trusted names in the industry.

Are battery projects generating electricity?

Unlike wind and solar projects, battery projects are not generating electricity. Rather, they provide a service and act as arbitrage assets. With a battery storage asset, electricity is bought and sold at different times of day to make money by storing electricity when prices are low and discharging it when prices are high.

What are the obstacles to a battery project?

The second, bigger obstacle to the project financing of storage assets is that the revenue stack for batteries is more complicated than for generating assets. Unlike wind and solar projects, battery projects are not generating electricity. Rather, they provide a service and act as arbitrage assets.

Battery storage in the power sector was the fastest growing energy technology in 2023 that was commercially available, with deployment more than doubling year-on-year. Strong growth occurred for utility-scale battery projects, behind-the ...

The battery storage technologies do not calculate levelized cost of energy (LCOE) or levelized cost of storage (LCOS) and so do not use financial assumptions. Therefore, all parameters are the same for the research and development ...
