

How much profit can be gained from investing in the energy storage industry

Do investors underestimate the value of energy storage?

While energy storage is already being deployed to support grids across major power markets, new McKinsey analysis suggests investors often underestimate the value of energy storage in their business cases.

How can energy storage be profitable?

Where a profitable application of energy storage requires saving of costs or deferral of investments, direct mechanisms, such as subsidies and rebates, will be effective. For applications dependent on price arbitrage, the existence and access to variable market prices are essential.

How does price affect energy storage technology investment income?

The price has considerable uncertainty, which directly affects the energy storage technology investment income. Investment in energy storage technology is characterized by high uncertainty. Therefore, it is necessary to effectively and rationally analyze energy storage technology investments and prudently choose investment strategies.

What are the factors affecting energy storage technology investment?

In addition, there are also many uncertain factors in technological innovation and market related to energy storage technology investment. On the one hand, Technological innovations appear at random points in time and investors are unable to make decisions between adopting existing and new technologies.

Is energy storage a good investment strategy?

However, for new technologies, the investment cost is lower and the benefit is higher, which has a better investment value than the current energy storage technologies. Additionally, the investment threshold is significantly lower under the single strategy than it is under the continuous strategy.

How to promote energy storage technology investment?

Therefore, increasing the technology innovation level, as indicated by unit benefit coefficient, can promote energy storage technology investment. On the other hand, reducing the unit investment cost can mainly increase the investment opportunity value.
