

Hybrid renewable storage cost breakdown in Chile 2030

How many energy storage projects are in Chile?

Currently, 36 of the 129 large-scale projects Latin America projects with an energy storage component under development are in Chile, including 32 out of 71 of the region's early works projects. The storage technologies either in use or being considered include:

How much battery storage capacity does Chile have?

According to data from Acera, the Chilean Renewable Energy Association, there are only 64 MW of battery storage capacity currently active, representing 0.2% of national capacity. AES Andes, a subsidiary of U.S. company AES Corp. operates all 64 MW at their Angamos and Los Andes substations.

What is a renewable plant with storage capacity (CRCA)?

Renewable Plants with Storage Capacity (CRCA): Renewable generation plants that use variable primary resources, composed of a generation component and a storage component, both connected to the same point of connection to the electrical system.
