

Kodak solar battery

What kind of battery does a Kodak inverter use?

The BL3.6 Kodak battery is required for a 5kW inverter, and two BL3.6 batteries are required for a 10kW inverter. The BL3.6 Kodak battery is a high performance, 3.68kWh, scalable battery module perfect for expanding systems. It allows up to 5000W of continuous discharge power.

How many batteries are there in Kodak solar products?

Energy storage solutions There are two batteries in the KODAK Solar Products energy storage portfolio: the BL3.6 and the BL5.0.

Which Kodak batteries are best for energy storage?

There are two batteries in the KODAK Solar Products energy storage portfolio: the BL3.6 and the BL5.0. Both are high-performance, scalable solutions that excel on all counts, with industry-leading 1.5C ratings and 95% depth of discharge (DoD) values for optimal efficiency, as well as generous 10-year warranties as standard.

What is a Kodak BL3.6 battery?

The BL3.6 Kodak battery is a high performance, 3.68kWh, scalable battery module perfect for expanding systems. A single BL3.6 battery module allows up to 5000W of continuous discharge power. This means only one BL3.6 battery module is required for a 5kW inverter or only two required for a 10kW inverter.

Who are Kodak solar products?

Energy you can trust at a price customers will love. Brought to South Africa by SegenSolar, its sole distributor, KODAK Solar Products offers a vast selection of reliable, affordable PV system components designed to alleviate today's energy woes with ease. The OG range

Who makes Kodak branded inverters & batteries?

Generating clean, sustainable energy from the sun Start generating clean, sustainable energy from the sun today and begin to see enhancements to your home life and business operations. Save with KODAK branded inverters and batteries from Blue Mountain Energy. Blue Mountain Energy Ltd. manufactures and sells the above products.
