

How much do LFP batteries cost?

With both the EV industry and stationary storage sectors increasingly adopting batteries with LFP cathode chemistry, LFP pack average prices were found to be US\$130/kWh and LFP cells at US\$95/kWh. LFP is now just less than 1/3 (32%) cheaper than NMC.

Will LFP dominate future batteries?

This 15-page report argues LFP will dominate future batteries, explores LFP battery costs, and draws implications for EVs and renewables. 2024 has offered up some exceptionally low battery prices. Most build-ups suggest lithium ion batteries should cost \$110-130/kWh. Yet the pricing on Chinese LFP batteries has been reported at \$50-80/kWh.

Why are LFP battery costs lower?

LFP battery costs are lower, specifically because of these chemical and performance differences. Cost savings on the materials side are quantified on page 5, while cost savings on the cathode manufacturing side are quantified on page 6. Chinese manufacturing of LFP batteries is the biggest reason for the downwards shift in the battery cost curve.

Are LFP batteries good for EVs?

"However, LFP batteries have now reached a performance level sufficient for most EV applications, making their lower cost a key advantage for automakers aiming to mass markets." Electric vehicle battery sales share by chemistry and region, 2022-2024. Courtesy of IEA. Licence: CC BY 4.0

Where does LFP spot price come from?

LFP spot price comes from the ICC Battery price database, where spot price is based on reported quotes from companies, battery cell prices could be even lower if batteries are purchased in high volume. Estimated cell manufacturing cost uses the BNEF BattMan Cost Model, adjusting LFP cathode prices with ICC cathode spot prices.

What factors influence BESS prices battery technology?

Key Factors Influencing BESS Prices Battery Technology: Lithium-ion batteries dominate the market, particularly Lithium Iron Phosphate (LFP) and Nickel Manganese Cobalt (NMC) chemistries. LFP has become more popular than the other due to its lower cost and longer lifespan.
