

Large scale battery storage tender price in Australia 2026

Will battery prices drop in 2032?

Wood Mackenzie expects the commodity price declines and technology improvements to also reduce battery module prices in the coming years. By comparison, battery system costs for grid-scale storage in Australia are 30-40% higher than China - China is the cheapest region, with prices expected to drop 50% by 2032.

How much does a battery storage project cost in Australia?

According to TrinaSolar that cost will total just \$400 million. The company clarified to Renew Economy that this \$400 million reflects only the first 330MW/1.32GWh stage of the project - but it still appears to set a new low for battery storage project costs in Australia.

How much does battery storage cost in 2024?

near or below \$A600/kWh, depending on size and hours of storage." Dixon says prices for battery storage projects have fallen dramatically from around \$A900-\$A1,000/kWh in the middle of 2024 to \$A650 to \$A750/kWh at the start of 2024 and \$A500 to \$A625/kWh now.

Will China's battery storage capacity increase in 2032?

Because of this, we expect a 28% increase in the country's battery storage capacity from now until 2032," said Kashish Shah, senior research analyst at Wood Mackenzie. Source: Wood Mackenzie A price drop for system and battery modules expected in Asia Pacific

Will energy storage undercut coal & gas in Australia in 2028?

Going forward, Wood Mackenzie expects renewables plus storage to undercut coal and gas in 2028, which is when the capacity buildout of battery storage will accelerate in the Australian market. Source: Wood Mackenzie "However, there are some barriers to Australia's uptake in energy storage.

What batteries are being built in Australia?

AGL: a new 250 MW / 500 MWh battery in Liddell, NSW. FRV: a new 250 MW / 550 MWh battery in Gnarwarre, VIC. Neoen: retrofitting the 300 MW / 450 MWh Victorian Big Battery in Moorabool, VIC to enable grid-forming capability. Neoen: a new 200 MW / 400 MWh battery in Hopeland, QLD. Neoen: a new 200 MW / 400 MWh battery in Blyth, SA.

In short: Pacific Green is leading development on what will be South Australia's largest battery storage facility, projected to store up to 60% of the state's residential solar energy. New large-scale battery projects are also ...

Re-join and reconnect with your colleagues, contacts and industry for this unique networking and shared learning opportunity. The Australian Energy & Battery Storage Conference will focus on the latest
